

**Unit 1: Nature and Perspective of Geography Review**

**Part 1: Terminology**

Below is a list of terms from this unit. Place them under the correct Key Issue and **be sure to be able to define them.**

<b>Introduction</b> Origins of Geography	<b>Key Issue 1</b> How Do Geographers Describe Where Things Are?	<b>Key Issue 2</b> Why Are Some Places Unique?	<b>Key Issue 3</b> Why Are Different Places Similar?	<b>Key Issue 4</b> Why are some human actions not sustainable?
<b><u>10 Terms/ People</u></b>	<b><u>14 Terms/ People</u></b>	<b><u>14 Terms/ people</u></b>	<b><u>15 Terms/ People</u></b>	<b><u>17 Terms/ People</u></b>
1.	1.	1.	1.	1.
2.	2.	2.	2.	2.
3.	3.	3.	3.	3.
4.	4.	4.	4.	4.
5.	5.	5.	5.	5.
6.	6.	6.	6.	6.
7.	7.	7.	7.	7.
8.	8.	8.	8.	8.
9.	9.	9.	9.	9.
10.	10.	10.	10.	10.
	11.	11.	11.	11.
	12.	12.	12.	12.
	13.	13.	13.	13.
	14.	14.	14.	14.
			15.	15.
				16.
				17.
Abiotic System	Distance Decay	Goode Homolosine Projection	Movement	Renewable Resource
Absolute Location	Distribution	GPS	Node/ Focal Point	Robinson Projection
Atmosphere	Economic Pillar	Hearth	Nonrenewable Resource	Scale
Biosphere	Ecosystem	Hierarchical Diffusion	Parallel/ Latitude	Site
Biotic System	Environmental Determinism	Homer	Pattern	Situation
Carl Sauer	Environment Pillar	Housing Bubble	Physical Geography	Society Pillar
Cartography	Eratosthenes	Human Environ Interaction	Place	Space- Time Compression
Concentration	Formal Region	Human geography	Possibilism	Stimulus Diffusion
Conservation	Friction of Distance	Hydrosphere	Preservation	Sustainability
Contagious Diffusion	Functional Region	Lithosphere	Prime Meridian	The Greeks
Cultural Landscape	Geography	Map	Projection	Time Zones
Culture	George Perkins Marsh	Mental Map	Ptolemy	Toponym
Density	GIS	Mercator Projection	Region	Unequal Develop/ Access
Diffusion	Globalization	Meridian/ Longitude	Remote Sensing	Vernacular Region

## **Part 2: Using Terminology to Summarize**

In the spaces below summarize each of our Key Issues for this unit. Be sure to include as much of the appropriate terminology as you can.

### **Summary 1- Origins of Geography**

### **Summary 2- How Do Geographers Describe Where Things Are?**

### **Summary 3- Why Are Some Places Unique?**

#### **Summary 4- Why Are Different Places Similar?**

#### **Summary 5- Why are some human actions not sustainable?**

#### **Part 3: What to Study**

Be sure to study the following resources:

- Key Issues 1- 4 Notes and Questions
- PowerPoints- What is Geography, Modern Day Mapping, Persuasive Power of Maps, Regions, Diffusion, Globalization, Spatial Interaction, Ch 1 KI 4
- Assignments- Scale and Projection, 5 Themes Notes and Flowchart, Putting Meaning on Chapter 1 Section 3, Checkpoint Quiz 1, Quizzes
